

Hazing Prevention Policy

In compliance with Florida law, Miami Business Technological University defines hazing as any act whether physical, mental, emotional or psychological, which subjects another person, voluntarily or involuntarily, to anything that may abuse, mistreat, degrade, humiliate, harass, or intimidate that person, or which may in any fashion compromise their inherent dignity as a person.

Hazing is inherently in conflict with the purpose and goals of Miami Business Technological University. Therefore, such conduct will not be tolerated. Every effort will be made by MBTU to ensure that hazing will not victimize students.
